## Summary

---

### About

I'm creative, innovative, and naturally curious. I strive to give my all and to persevere when faced with challenges. Technology is everchanging and I want to be a part of that everchanging world.

I am confident in the following tech stacks: \* *Html,CSS , WordPress (Elementor, Beaver Builder, WP Bakery Page Builder \*)*.

### Ideal next job

My ideal next role would be in the tech industry, where I can thrive in a structured environment. I am looking for a company that values clear role definitions and offers mentorship opportunities and collaboration.

I am particularly eager to secure a position where I can utilize my skills in WordPress to build websites. Whether it's for the company itself or clients, I am confident in my ability to create visually appealing and functional websites. Additionally, I have a basic understanding of HTML and CSS, and I am always open to further learning and growth opportunities.

One of my preferences is to work remotely rather than being on-site. I find that remote work allows me to be more productive and achieve a better work-life balance. I am confident in my ability to handle the responsibilities of working remotely and I am comfortable using the necessary tools and technologies to collaborate effectively with a distributed team.

Overall, I am excited to find a job that aligns with my skills and interests in the tech industry. I am eager to contribute my expertise in WordPress, HTML, and CSS, and I am looking forward to being part of a supportive and innovative team.

*Please note that my notice period is one month.*

CSS

### Duties Included

- Developed responsive websites using WordPress CMS, ensuring seamless user experiences across different devices and screen sizes.
- Leveraged popular page builders like Elementor, Beaver Builder, WP Bakery, Visual Composer, and Divi to create dynamic and visually appealing web pages.
- Utilized Custom CSS and JavaScript to enhance website functionality and meet specific client requirements when necessary.
- Maintained a strong focus on website security, regularly conducting weekly scans to detect and eliminate any malicious content or potential security breaches.
- Ensured the integrity and security of websites by promptly updating plugins and the WordPress version to their latest releases, minimizing vulnerabilities and improving performance.
- Collaborated closely with clients to understand their needs and provided technical support and guidance during the development and maintenance phases of their websites.
- Worked in a fast-paced environment, handling multiple projects simultaneously.
- Participated in team meetings and brainstorming sessions to share knowledge and best practices, contributing to the continuous improvement of the development process.
